TAKE A RIDE INTO HISTORY.
Climb aboard our beautifully restored electric streetcars.

From 1903 to 1932, electric rail was a regular mode of transportation in Kenosha. On June 17, 2000, Kenosha welcomed home these quiet, pollution-free vehicles to its beautiful lakefront.

Kenosha's streetcars are authentic 1951 President's Conference Committee (PCC) cars. The current seven-car fleet formerly operated in Toronto, Ontario and Philadelphia, PA, before being refurbished and relocated to Kenosha. The current streetcars provide mobility to residents and tourists alike along its two-mile route. Whether it's a convenient ride to work or a scenic tour of the Lake Michigan shoreline, our streetcars will have you yearning for the days of yesteryear. So climb aboard and enjoy your ride!
